"The Reproduction of Mothering was that rare book that had a major impact on two different constituencies: feminists and psychoanalysts. It was a must-read in 1978, putting object-relations theory on the map in the United States, and it remains a must-read today. It continues to shape the thinking of analysts and feminists today, and it is one of the key texts available that links psyche and culture, psychoanalysis and sociology."–Ethel Spector Person, M.D., author of The Sexual Century. The Reproduction of Mothering was chosen by Contemporary Sociology as one of the ten most influential books of the past twenty-five years. With a new preface by the author, this updated edition is testament to the formative effect that Nancy Chodorow's work continues to exert on psychoanalysis, social science, and the humanities. The Reproduction of Mothering Psychoanalysis and the Sociology of Gender, Updated Edition, With a new preface. by Nancy J. Chodorow (Author). November 1999.
